	and breadsticks	noodles	roll
milk or hot	homemade	chicken curry + rice +	couscous + grilled
chocolate	granola	fruit salad	chicken + salad

Tips for fuelling your brain and keep it working through lessons and exams:

- 1. Avoid too much sugar: it will make your energy and mood go up and down too fast.
- 2. Make sure you have enough protein such as: beans, nuts and seeds, eggs, fish, chicken, lentils/pulses, soya, whole grains (such as oats) and dairy.
- 3. Don't let yourself get too hungry.
- 4. Drink enough water and avoid fizzy drinks.
